Groove on the move !!

- Established global company
- Offices in USA, UK, Australia and Hong Kong
- Innovative products - leader in product design and development
- Long term relationships with retailers around the world
- We know retail -
    - POS & packaging
    - Sophisticated logistics system
    - Hassle free warranty
    - High margins
    - Aggressive retail prices
    - Support retail promotions

In 2003, Cygnett was created - a fresh, youthful & technically savvy brand that quickly established a reputation for bringing a new generation of music lovers the ability to enhance, expand & integrate their iPod & MP3 experience.

With an ever-evolving range of iPod & MP3 accessories, Cygnett manufactures everything from fashionable cases to high-end speaker systems. Renowned for its fun and innovative approach to technology, Cygnett takes its product development seriously. With a global network of design, sales, production and marketing teams, we band together to ensure that all Cygnett products are design-driven, user-friendly and affordable.

With its headquarters in Australia, Cygnett is an international company with offices around the globe. Its expansive distribution network and skilled resources ensure that all products are quick to market so that you, the consumer, have access to the latest in iPod & MP3 accessory technology when you need it.

GrooveTraveller II

Made for iPod

Complete car kit for iPods with dock connector

Transform your next road trip into a musical adventure with the GrooveTraveller. It's the essential iPod accessory for your car.

- Play your entire iPod library of music, audio books and podcasts through your car stereo, so you can leave the earbuds at home and everyone can listen
- Backlit LCD display allows for precise tuning, even at night
- Adjustable cradle holds your iPod securely & at the angle that suits you best for easy access to controls
- Easy to use, just plug into your cigarette lighter & find an unused frequency on your radio, then tune the GrooveTraveller to that station and groove away
- Self-powering so it won't drain your iPod's batteries while in use - instead it will charge them
- Wide transmission range from 87.5 - 108.0MHz so you're sure to find an available station
- Automatically stores the last used frequency in memory
- Also works with other MP3 players, audio only

*This product will work with iPhone, however a screen will appear asking you if you would like to switch to Airplane mode. Your iPhone will still operate normally and if your phone rings, the music will fade in/out before & after you take the call. You may experience some TDMA noise. See cygnett.com for more details.

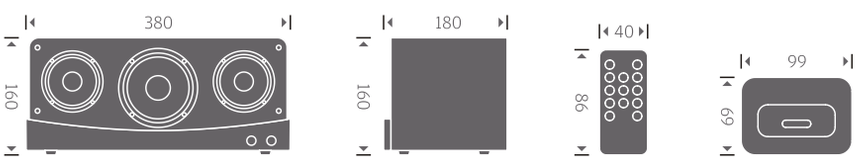
i-XT Dynamic Speaker System

Product Code U-S-IXT

Made for iPod

Video-out works with all iPods



Sleek & Sophisticated. The Unison i-XT brings you room-filling bass and impressive musical clarity, song after song. Streamlined in both design & sound, the custom-engineered, high gloss cabinet is as smooth as the sound it produces. Housing dual dome tweeters for smooth highs and mid range, a sub-woofer dedicated to delivering deep bass and a powerful built-in amplifier, this compact system gives full spectrum sound to any song you choose.

With an intelligent remote, you have complete control of your iPod interface from anywhere in the room, while the minimalist design fits effortlessly into any interior or living space. iPod ready dock and cables for stereo/home entertainment system connection included.
